THE CHAS. BAUMBACH CO.

MILWAUKEE, January, 1890.

To our Friends and Patrons and to the Trade in General:

Presenting this new edition of our Catalogue, we want to render our thanks for the many favors and the large patronage extended to us during the past year. We shall do our best to deserve the same in the future.

We trust our Catalogue, while the size makes it handy for use, will be found to contain all articles in our line which our customers may care to look for. Prices are carefully corrected, but are, of course, subject to fluctuations of the market. Special quotations will be given promptly if requested.

We sell on thirty and sixty days' time; Alcohol, spot cash, ten days or thirty days net, according to price. Oil and Turpentine, thirty days net, other goods sixty days or 1½ per cent. discount may be deducted if paid in ten days from date of bill.

We charge interest for all bills overdue.

Please pay your own Exchange and prepay Remittances.

After delivering goods to Transportation Company in good order, and holding receipt to that effect, we will not be held responsible for any loss, leakage, breakage or damage.

Parcels ordered to be sent by mail are sent at owners' risk, as the government will not make good any loss.

We are always ready to buy for our customers such articles which we do not carry in stock, but such goods must not be returned except with our consent.

Containers, which are to be filled, should be sent a few days in advance of order, properly marked and freight prepaid, and should always be advised.

We take back only our own cans and kegs, and only at the price which they are worth to us when we receive them.

Some of the Railroads forward Oil only by "Oil Cars," running twice or three times a week, so do not blame us if your Oil does not arrive with other goods, and wait a day or two before sending in your claim.

We are always glad to see old and new customers in our office, and to assist them in any business they may have in Milwaukee, whether in our line or not, and hoping to see many of you during the coming year, we remain,

Respectfully,

THE CHAS. BAUMBACH CO.

No Plasters in the World can compare with these.

A SAFE & SURE REMEDY

Thousands can Testify to their Healing Qualities.

Warming Soothing AND Comforting

THE RACE FOR THE CUP

THE WINNER COMING HOME.

Allcock's Porous Plasters

Are of world-wide reputation, all other so-called Porous Plasters are made to sell on the merits of these, the Genuine—avoid all such and insist on having ALLCOCK'S—the Plaster that owes its enormous sales to its intrinsic merits.

BRANDRETH'S PILLS

Purify the Blood, cleanse the Stomach and Bowels and purge the system of all disease. Guaranteed purely vegetable. They should be used in connection with ALLCOCK'S POROUS PLASTERS.

Allaire, Woodward & Co.'s:

Herbs, Roots, Barks, Flowers—Pressed, etc. (Common names.)

We invite attention to the following list of staple pressed goods. Any others furnished on application. Prices quoted are for Herbs and Flowers in ounces; Roots and Barks in pounds. Herbs in ½s, ¼s or pounds—2 cents per pound less. The ounce package has printed on it all the common names and properties of the drug. Also German and French names, Formula and Dose of Infusion.

Roots and Barks in ounces, 4 cents per pound advance.

Poisons have the antidote printed on each package and are put up in yellow paper.

Prices subject to market changes without notice.

Where two grades of the same article are quoted, orders will be filled with the lowest priced, except when the higher grade is specified.

Gelatine-Coated Pills

ORIGINATED BY

McKESSON & ROBBINS,

NEW YORK.

(See Pages 31 to 54).

We desire to express our sincere thanks to the members of the medical and pharmaceutical professions for their continued encouragement and assistance, extended to us since our gelatine coated pills were introduced. The advantages of the oval form, the complete covering of pure gelatine, and the reliability of the medicament were at once appreciated and have earned for the "McK. & R." Pills the confidence of the best physicians and pharmacists wherever they have become known.

Many attempts at improvements and imitations, at lower prices, have been placed on the market; but we are pleased to say that our constantly increasing sales and the many letters of commendation we receive, evidence a continued preference for our manufacture, to which any practitioner, after a careful trial, will concede they are entitled.

"The one form of pill that is an advance on anything previously manfactured."—*Lancet*, (London).

"Pills of exceptional merit for originality and for excellence of manufacture."—*Medical Times and Gazette*, (London).

"The pills of McKesson & Robbins are quite of the highest class of merit, in respect to the method, in respect to the materials, and in respect to results."—*British Medical Journal.*

"In the class of pills there are probably very few improvements that have attained such wide and speedy recognition in the profession as the beautiful ovoid capsuled pills of McKesson & Robbins, New York."—*Medical Press and Circular*, (London).

"Ovoid Capsuled Pills Prepared by McKesson & Robbins. In this form the ingredients are not only perfectly preserved, but do not affect the teeth, or offend the palate, and, further, can be conveniently kept out of sight by those who object to be regarded as invalids."—J. Milner Fothergill, M.D.

The preference for ovoid Capsuled Pills is increased by microscopical and chemical, as well as therapeutical, tests of quality. We most earnestly and respectfully request you to specify "McK. & R." on all orders.

"The quality of the masses in the 'McK. & R.' capsuled pills, as exhibited through a lens which magnified the interior of the pills (containing mineral salts) twenty diameters, gave ocular demonstration of careful laboratory work."—*British Medical Journal.*

"The ovoid shape is a positive advantage over the round form, as patients, even small children, take them easily after finding it impossible to swallow round pills, even if coated. These pills are completely and hermetically sealed by the continuous covering of gelatin; they do not have pin-holes or other openings penetrating the covering, as we have noticed in some other pills. They are quickly soluble, and certainly the most important improvement yet made in the manufacture of pills."—*Medical Press and Circular*, (London)

Complete dose and price list, with brief notes on the uses of Gelatine-Coated pills and granules, in a vest pocket edition, mailed free to any physician. Address, 91 Fulton Street, New York.

Private Formulas of 3,000 pills or over made and coated to order.

LABORATORY DEPARTMENT.

We were awarded the highest medals, both at the Vienna and our Centennial Expositions, for excellence of our Preparations, including GELATINE-COATED PILLS, FLUID EXTRACTS, ELIXIRS, SYRUPS, &c., and we take pride in calling attention to the unqualified favor with which they have been received by the medical and pharmaceutical professions. We ask the continued patronage of those, who, by experience, can attest their superiority, while we request trial orders from all with whom quality is the main desideratum. We received a medal at Paris, in 1878, for crude indigenous drugs and essential oils, which comprised our whole exhibit. We were, also, awarded the first medal at Sidney, Australia, for fine Chemicals, which embraced our Quinine, Cinchonidine, &c. We were awarded a silver medal for our CAPSULED PILLS, at the Calcutta Exhibition of 1883-4, a gold medal at the Exposition at Ostend, Belgium, 1888, and a gold medal at the Exposition at Barcelona, Spain, 1888. At the Michigan State Pharmaceutical Association, held in Detroit, 1888, we were awarded a gold medal for the most instructive exhibit.

Regarding the cause of dissatisfaction with many of the Fluid Extracts and Pills offered in the market, to be due to careless selection of the crude drug, careless manipulation in manufacture, the want of practical knowledge of Pharmacy, and a strong desire to realize excessive profits on sales, we give this department our personal attention, and carefully superintend every detail.

ABSTRACTS—U. S. P., 1880.

Each grain of the powder represents two grains of the crude drug.
Keep in well-corked bottles in a cool place.

This water-white oil is odorless and tasteless, and does not congeal nor become rancid. In the treatment of aural, nasal and laryngeal affections, it has been very highly recommended for use as a spray, either alone or in combination with the various medicaments indicated. Albolene and Liquid Albolene may be mixed together if a product of any intermediate consistency be desired. Liquid Albolene is recommended also for injections, and as a lubricant to facilitate digital examinations, the passage of instruments, etc. It is cleanly inodorous and non-irritant. As a fine illuminating oil, it is preferable to olive, rapeseed, etc.

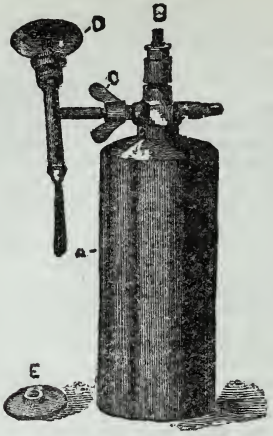
CHLORIDE OF METHYL.



Apparatus for Giving the Chloride of Methyl Spray.

A—Copper siphon containing the chloride of methyl. B—Head of screw opening or closing the siphon. C—Thumb-screw for attaching spray tube to siphon. D—Disk, the turning of which determines the amount of spray. E—Circular key fitting on and turning the head of the screw B. To use the spray, close D tight, then place E on B and by a turn allow the gas to escape into the spray tube.

The patient being ready, a slight turn of D liberates the spray.

TERMS ON WHICH SIPHONS ARE SOLD.

COCAINE AND COCAINE PREPARATIONS.

McK. & R. brand of Muriate Cocaine is crystallized from an alcoholic solution, and is remarkable for the dryness, purity, and whiteness of the crystal. We manufacture only the anhydrous variety; and physicians and druggists can feel assured of receiving a uniform article by ordering "McK. & R. anhydrous crystals" in original vials. It is put up in 5, 10, 15 grain, ⅛ and 1 oz. vials. The *British Medical Journal*, *Lancet* and *Medical Press*, of London, speak in the highest terms of the McK. & R. preparations.

McKESSON & ROBBINS'

Fluid Extracts.

These Extracts are prepared by cold re-percolation, thereby avoiding the effect of heat and exposure to the air, which impair those active principles in which the virtues of all vegetable remedies consist. By experience we have determined the greater efficacy of different menstruums in the exhaustion of the virtues of different drugs; in some, glycerin being a valuable adjunct to the alcohol—in others, objectionable. **Each drug is carefully studied by itself, and great care is taken that each lot of the same extract should be uniform with the preceding, the specific gravity, where the same menstruum is used, being a test.** The process that we employ has been endorsed by the leading pharmaceutical journals, and by our best chemists, and every thinking pharmacist will readily acknowledge the danger of applying heat to medicinal drugs. **Formulas for making Syrups, Tinctures, &c., from our Fluid Extracts, are printed on the labels.**

Each Pint of our Extracts represents one pound of the raw material, and the dose can be regulated accordingly. The only exceptions are Fluid Extract of Opium, which is of a strength of ten per cent. Gum Opium, Fluid Extract of Vanilla and Fluid Extract of Rhubarb Aromatic, which are twenty-five per cent., and Fluid Extract of Tolu and Fluid Extract of Benzoin, which are half strength, on account of density. Put up in 5 pt., 1 pt., ½ pt. and 4 oz. bottles.

We desire to call special attention to our Fluid Extracts of Ipecac, Squill, Squill Comp., Sarsaparilla Comp., &c., for Syrups; which make clear Syrups by simple admixture, no filtration being necessary. In this connection, we would caution our friends to use care in purchasing unknown brands of Fluid Extracts, many now offered in market being merely Tinctures.

Prices given are for one pint bottles, including bottle. In five pint bottles a reduction from the list of ten cents a pint is made. These Fluid Extracts are also put up in neat 4 oz. bottles at an advance of twenty cents a pint on the price of the one pint.

☞ **Our Extracts are sent in 1 pt. bottles, unless specially ordered otherwise.**

THE FUTURE ANALGESIC, EXALGINE.

There is little doubt that Exalgine, known chemically as methylacetparatoluidine, is destined to become the favorite agent for the control of pain. Its unquestionable power, its gentle, but effective action, its freedom from after-effects such as rash, or cyanosis, which not infrequently follow the administration of other derivatives of the aromatic series, all combine to represent the ideal analgesic, or pain destroyer, more nearly than any other drug.

Dr. Dujardin-Beaumetz, who has had a very wide experience with exalgine, says: "I have seen it subdue pains which had resisted all other analgesics, and this with doses which have not exceeded 50 to 60 cgm. (8 to 10 grains) *in the 24 hours.*" "It combats polyuria, convulsive symptoms, and, perhaps, epilepsy." "I have never seen an eruption appear."

M. Brigonnet, of the Cochin Hospital, Paris, cables us that Exalgine has been extensively used in the treatment of *La Grippe* with great satisfaction; he mentions such well-known names as those of Dujardin-Beaumetz, Bardot, Desnos, and Michaux. The secret of its success would appear to be due to the fact that it is not only one of the most potent analgesics, but has antipyretic properties as well.

A word of caution: the mildness of the action of exalgine has led to its employment in this country, in some cases, in large doses. "It is understood," says Dr. Dujardin-Beaumetz, "that only moderate doses are to be employed, 4 grains two or three times a day." Desnos has used 20 grains in the 24 hours without bad effects, but such large doses are unnecessary, except, of course, in special cases.

Put up in one ounce tins, and in gelatine-coated pills of 2, 3 and 5 grains. The "Cordial Exalginique" will be found a very agreeable preparation in the treatment of headache; it contains 2½ grains to the tablespoonful, and more exalgine can be added if thought advisable.

McKESSON & ROBBINS,

NEW YORK.

PILLS, GELATINE-COATED, McKESSON & ROBBINS.

OVOID IN SHAPE. **CONTINUOUS COATING.**

(PROCESS AND MACHINERY PATENTED.)

It will be readily conceded that the preference of the medical and pharmaceutical professions for GELATINE-COATED PILLS, which is now so general, has been established by the merits of our manufacture. The reputation which the McK. & R. Pills have gained has induced (as is usually the case) many imitations, in most of which, unfortunately, the *price* has been more of an object than the *quality*. We respectfully urge upon all who would protect themselves against these, the necessity of mentioning our name or initials in ordering pills from other wholesalers. Nearly all the prominent jobbing houses in the United States, Canada, Great Britain, and the Colonies carry the complete line; and the pills may be procured from them by specifying "McK. & R." when ordering. By observing this precaution, the pharmacist will avoid inconvenience to himself and disappointment in results, to his physician and patrons.

We ask attention to the following features of the McK. & R Pills:

1st.—**They are reliable,** being made strictly in accordance with the formulas given, and of the best materials only.

2d.—**They are soluble;** the gelatine, being speedily converted into jelly, the contents of the Pill are left free to act. TO TEST THE SOLUBILITY OF THE COATING, PLACE A PILL IN THE MOUTH AND NOTE THE RAPID DISSOLUTION OF THE GELATINE. A SINGLE TRIAL OF A DOSE OF COMPOUND CATHARTIC PILLS WILL ATTEST THEIR SOLUBILITY AND EFFICACY.

3d.—**They are easy to take;** patients, who have found it almost impossible to swallow a plain or sugar-coated pill, are surprised at the readiness with which the McK. & R. Capsuled Pill "goes down," on account of the ovoid shape and the nature of the coating.

4th.—**Our Pills are ovoid** and, unlike others, *necessarily soft*, when coated. *Our process is the only one in which the mass can be coated when* SOFT; in fact, the pills *must* be soft in order to be coated by our machinery and the **COATING COMPLETELY COVERS THE PILL WITH GELATINE.**

—OF—

Pills of Sulphate, Bi-Sulphate of Quinine,

AND OTHER CINCHONA ALKALOIDS.

The value in and reputation of Gelatine-Coated Pills have been created by our manufacture and advertisement, and these well known facts should be respected by the trade. We claim that the "**McK. & R.**" **BI-SULPHATE of Quinine Pills** are more soluble and more readily assimilated than SULPHATE OF QUININE taken in powder, and have lately strongly urged their general use. The demand has largely increased, and experience has justified our further claim that on account of PROMPT ACTION and PERFECT SOLUBILITY, BI-SULPHATE OF QUININE, although containing less of the Quinine Alkaloid, is MORE EFFICACIOUS, dose for dose, than Sulphate of Quinine. Bi-Sulphate of Quinine was formerly sold 50 and even 75 cents per oz. higher than the Sulphate, but we have brought the price of McKesson & Robbins' beautifully white and uniform crystals to the same figure as the Sulphate; and were it not for the greater difficulty attending the crystallization of the former for the market, due to its ready solubility, it could be sold lower than the Sulphate. We have deemed it advisable, in order to facilitate their general introduction, to REDUCE PRICES of our BI-SULPHATE OF QUININE PILLS below those of the Sulphate, and have no doubt that their sale will be largely increased. We would particularly request that **McK. & R. BI-SULPHATE Quinine Pills** be specified. Many so-called Bi-Sulphate Quinine Pills offered in market are not made of true Bi-Sulphate Quinine.

Very respectfully,

McKESSON & ROBBINS.

REFERENCE TO THE GELATINE COATED PILL.

ORIGINATED BY MCKESSON & ROBBINS, 1870.

"The process of coating the McK. & R. pills with gelatine not only takes away the disagreeable appearance, odor and taste, but forms a hermetical coating about the medicine, protecting it from atmospheric moisture, and thus preventing deterioration. This fact enables one to purchase them in larger quantities without fear of change of their composition. They are not affected by climate, changes in temperature, or variations in the hygrometric conditions of the atmosphere; and drugs, which otherwise oxidise rapidly, may be preserved in this state for years. The gelatine coating is perfectly transparent and very thin, so that it requires but half a minute in the mouth to dissolve it. Being of ovoid shape, they do not resemble ordinary coated pills; they are swallowed with the greatest ease where the above mentioned are rejected. The slippery character which the coating assumes after having been taken into the mouth renders the pill almost imperceptible to the sensitive mucous membranes of the soft palate and fauces, and this, we think, contributes greatly to the ease of administration."

McK. & R. POWDERED DRUGS.

It seems highly proper to classify powdered drugs among pharmaceutical preparation, because the selection and garbling of the crude drug and its reduction to a powdered form make a *preparation* of the powder, and as such it should carry the label of the producer as a guarantee of its purity, the same as a bottle of Quinine or Fluid Extract. We have recently adopted 1 lb. square tins as containers, and prices quoted below, which will be subject to market changes, include the cans, the increased cost for which is trifling. These cans are very slightly and make neat and attractive shelf packages.

Powdered Cinchona Barks and Powdered Opium will be labeled with their respective assays, and upon the labels of Powdered Ergot and Powdered Narcotic Leaves will be stated the year that the crudes were gathered.

Other powders than those here quoted will be furnished, of guaranteed purity, upon application. Our desire is to have the trade order the following powders in 1 lb. cans only, and on that account we have merely added the increased cost, figured down to the lowest basis.

All powders sent out by us, in cans bearing our label, are guaranteed by us.

Gray's American Hard Capsules, *Dundas Dick & Co., Selling Agents.*

These Capsules are specially adapted for Export, and being hard, are suitable for the trade in warm and damp Climates. They hold 10 minims each, and where the quantity of medicament is not sufficient to fill a capsule, the bulk is made up with a bland oil or Milk sugar, which ever is best suited to the nature of the ingredient; those containing milk sugar being practically, pills without an excipient. They are easily swallowed, and dissolve quickly in the stomach.

They are put up in tin boxes containing 30 Capsules. In ordering please specify GRAY'S AMERICAN HARD FILLED CAPSULES.

THEY WILL NOT BE IMPOSED UPON.

We give below extracts from a few letters we have lately received from pharmacists in different sections of the country, showing how our caution to retailers against permitting themselves to be made the victims of substitution has been heeded. It is hardly necessary to say that instances which compel retailers to take such action as is indicated by these letters, are extremely rare. This is due to the fact that jobbers generally recognize that manufacturers are entitled to the full benefit of the good-will they establish with pharmacists, and when the latter specify or are known to want a special make of goods, the honest and fair-minded distributor will always furnish it. There are, however, some jobbing houses that will not hesitate to deprive a manufacturer of the fruits of his labors in building up a demand for his goods, by attempting to run in, wherever possible, goods upon which they can, by some hook or crook, make a little extra profit. As the rule, of course, these goods are inferior in quality, and can be bought at all sorts of "special" discounts, so that the jobber, by billing them to the retailer at somewhere near the price of the established brands with which they seek to compete, can make more out of the retailer than he can on honest goods. We believe there are few jobbers who will descend to this system of poaching upon the good will of manufacturers, but these few have placed themselves in direct and open antagonism to every manufacturer against whose goods they thus discriminate, and the latter has no means of defense but to bring himself into direct communication with the retailer. And what constitutes

The Defense of the Manufacturer is the Protection of the Retailer,

As the following letters, referred to above, prove.

A retail firm at Fairbury, Neb., writes as follows: "We inclose memorandum of articles which we need, and which we, after our experience in ordering from the jobbers, feel that we can only get direct from you. Our orders are cut and substitutions made always, we may say, when placed with jobbers. If you do not choose to ship direct to us, ship through ——. We would like a catalogue of your goods with discounts and smallest quantity of goods to enable us to get favorable terms."

Another retail firm at Warren, O., accompanies an order with the following: "We have been trying to get your goods in —— but they

would send us every other make but S. & J., some of the goods being worthless. The above order we judge is large enough to entitle us to the discount; if it is not, let us know."

A Peekskill, N. Y., pharmacist complains that he has "several times ordered S. & J. Absorbent Cotton from a jobber and received another and inferior make, which was returned every time with the injunction to send nothing but S. & J." But repeated substitutions resulted in a direct order as the only remedy.

A Troy, N. Y., believer in first-class goods, writes: "About a month ago I sent to —— for some Mead's Adhesive Plaster. They sent me an inferior article. I then sent back for the better article and they sent me word they had none, that this was just as good. I then sent to another house and found that they too had the inferior article. I asked the second house why they kept the inferior goods? 'It is —— and ——' they said, 'and we get better terms from them,' 'and inferior goods and none of my custom if I can help it,' was my reply. I have had the same trouble, of late, with absorbent cotton, and in other ways I have had strong reason to complain of other goods."

In justice to some of the jobbing houses of which complaints similar to the above have been made, we must state that we have found the substitutions complained of to be, in some cases, the fault of order clerks, who have done the substituting in their efforts to unload unsalable goods which the house had stocked on the strength of a few orders turned in by the representative of the manufacturer and the promise of similar efforts to maintain a steady sale for his goods. But, however innocent the motive which led to these substitutions, the act was no less unfair and disastrous to the buyer and to the manufacturer, and they are mutually interested in preventing its recurrence.

There are plenty of fair-minded and strictly honest jobbing houses in every part of the country, from which retailers should be able to get what they want, at proper prices, every time, but if they cannot we are glad to invite direct correspondence and to afford them every facility for getting what they want in our line without danger of substitution. Respectfully,

SEABURY & JOHNSON,

These Jars are made in Amber and White Opaque Glass, with Steeple Top or Flat Top. They are much preferable to Earthenware, as the latter are liable to be penetrated with grease, when they become discolored and rancid. Glass resists grease for an unlimited period.

These Jars can be fitted with Glass Labels to match Shop Furniture Bottles, at the usual cost, in addition, of Glass Labels.

Phenix Dispensing Tank, each 1 75

This Tank is designed for dispensing heavy oil, such as Castor Oil, Olive Oil, Glycerine, etc. Bottles of any size can be filled directly from the pump spout, thus avoiding waste and overflow, while the tightly-fitting cover prevents evaporation and excludes dust.

Furnished unlettered or lettered—either Oleum Olivar, Oleum Ricini, or Glycerinum.

Contents, 2 gallons.

Names other than the three given above can be painted on the cans at a cost of 25 cents each.

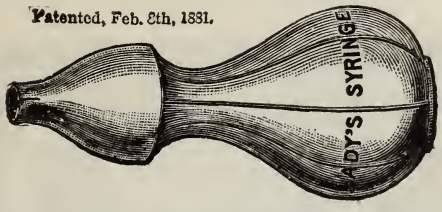
The Lady's Syringe—

Manufactured by Goodyear Rubber Co.



We recommend it as the simplest and most perfect Vaginal Syringe in the market. It is made of one piece of soft rubber, without any tubing, valves, screw threads or extra nozzles, and consists of the nozzle or vaginal plug, and a bulb. The vaginal plug is the essential feature of the instrument. It is constructed in such a manner that when its nozzle is pressed against the vaginal inlet it closes the latter so perfectly that when the bulb is pressed upon, the injection enters the vagina and expands all its folds which harbor the discharges to be removed. As long as the bulb is pressed upon, the injection is held in contact with the entire mucous membrance, and is withdrawn the moment the bulb is allowed to expand. By repeating the injecting and withdrawing several times, the vagina can be more perfectly cleansed than can be done by any other instrument.

CROWN FLOOR PAINTS

Are made from such materials as long experience has shown to be the best adapted for painting floors. They DRY QUICKLY and become very HARD, leaving a durable finish.

65 French Ochre

70 Orange

75 Dark Drab

85 Venetian Oxide

95 Light Drab

90 Red Brown

SPECIAL NOTICE.

THE high reputation attained by the CROWN FLOOR PAINTS has brought out many worthless imitations. Some manufacturers are offering a cheap, quick drying barrel paint, others a common roof paint, but none have succeeded in producing a Floor Paint having all the good qualities of the CROWN. While it dries hard in a few hours, it is sufficiently elastic so as not to crack, scale or chalk off. It will not settle down and become hard in the bottom of the package, hence there is no loss from sediment. It has the property of resisting the destructive action of heat, acids, gases, alkaline solutions, etc. Any dealer handling CROWN FLOOR PAINT is authorized to guarantee it to give perfect satisfaction, *if used in accordance with directions on each package*, or the money paid for the same refunded and charged to our account. With first order we furnish an elegant window sign, showing the colors on wood, and a good supply of sample cards showing colors on paper.

LOOK OUT

FOR imitations of the CROWN BUGGY PAINTS.

Our *rapidly increasing* trade has astonished our competitors, and they are endeavoring to get our business by making lower prices. This can easily be done by using cheap varnish, which soon loses its gloss, and makes the work look worse than before it was painted. The secret of our success is that we grind our BUGGY PAINTS in *durable coach varnish*, which will stand exposure to the weather and retain its gloss for a long time.

Distemper or Fresco Colors—*The S.-W.*—

This line of Colors is prepared to meet the wants of Fresco and Scenic Artists, Grainers and others, and is a much better grade of goods than usually sold under this name. They are the finest selected colors, ground impalpably fine, and put in white glass jars, about 3 inches by $2\frac{3}{4}$ inches in diameter, with a close-fitting tin cover, rendering the package valuable after the color is used.

Raynolds' Permanent Flat Brick Red—

Especially adapted for producing a perfectly flat, bright color on any kind of brick wall. Superior to anything of the kind ever before in use, and ready for application when thinned to proper consistency with SPIRITS TURPENTINE. It dries in less than three hours, and is therefore unlikely to be injured by rain. Only one coat of ordinary red in oil is required before finishing with this FLAT BRICK RED.

ALABASTINE.

The Best Painters and Decorators Use and Recommend Alabastine.

Alabastine is Advertised Among Consumers and is in Demand.

A Dealer Can Sell Ten Times the Amount of Alabastine That He Can of Kalsomines.

IT CAN BE MIXED AND APPLIED BY ANY ONE

With Our Designs to Follow, Any Painter Can Beat Wall Paper Effects or Prices.

CHURCH'S IMPROVED

ALABASTINE

The Permanent Wall Coating.

Adapted to all Styles of Wall Work from Plain Tinting with Stencil Ornamentation to the Most Elaborate Decorating in Wall Relief Work.

The Only Article, for the Purpose, Advertised Among Consumers.

The reputable dealer has two objects in view in handling a line of goods. To handle those goods on which he can make the most profit and those that possess merit and will give satisfaction to his trade, and on which a trade when once established will be a satisfactory and growing one. No sharp dealer confounds *price* with *profit*, and he will not handle goods unadvertised and for which there is no demand, but prefers rather to handle those goods on which there are large sales, and consequently, large profits, which are advertised and possess merit. Alabastine is the only wall coating advertised in the west among the users. No kalsomine, or non-setting mixture, is other than a temporary coat, that requires more labor and expense to remove it from the wall than to apply it, while Alabastine is a hard setting porous cement that forms a stone like shell, and every coat added from time to time improves and strengthens the wall. We shall continue to spend a very large amount of money in advertising our goods to consumers and feel that every dealer should know the difference between Alabastine and the kalsomining or non-setting preparations, which he can learn by carefully reading the sample circular.

Remember we say "that no kalsomine maker can claim durability," as all users know that kalsomines and non-setting preparations of all nature, and under whatever name, scale off in a comparatively short time, instead of hardening with age, like Alabastine.

If any dealer will send us the name of a good decorator in his town, we will be glad to send both the dealer and decorator, lithograph proofs, showing different styles of wall decorating which can be done with Alabastine, and the line of stencils which we manufacture.

N. B.—Notice the two new shades of Alabastine, Nos. 8 and 14, which by intermixing with other tints shown on sample card will produce an endless variety of the leading fashionable tints for decorating.

PAINTS.

House and Villa—

PURE LINSEED OIL MIXED PAINTS.

These paints are manufactured of selected materials; and UNLIKE the host of so-called Chemical, Enamel, Rubber, Patent,

and other articles of similar styles which flood the market, are a pure, reliable article, the result of long experience in manufacturing Paints, and will, on trial, at once recommend themselves.

They are warranted to contain no benzine, alkalis, or water, but are Pure Linseed Oil Paints (weighing about 15 lbs. to the gallon), and SUCH AS ANY FIRST-CLASS PAINTER WOULD PREPARE. Their base or composition is Carbonate of Lead, Oxide of Zinc and Linseed Oil, tinted with fine durable colors; thus producing when properly applied, a hard enamel surface that will not chalk, peel or blister, and is unaffected by temperature or moisture, thereby making them a very desirable and economical paint.

GRANITE FLOOR PAINTS

Manufactured by a peculiar and special process (invented by us) from the purest and finest materials by skilled workmen.

READY FOR USE. **A LIGHTNING DRYER.**

Effectually resists hot water, alkali, soap, etc.

GUARANTEED to be far superior to any Paints heretofore offered for painting floors, steps or piazzas.

There are three great faults with the Paints heretofore used, namely: First, they require a long time to dry, which causes great inconvenience; second, they never dry perfectly hard, and consequently will not wear; third, cold water will stain, hot water blister, and soap, to a certain extent, will remove them.

We present the *GRANITE FLOOR PAINT* to the public with the assurance that it has none of the above faults.

We guarantee our oils to be as represented.

Cooperage prime and guages correct.

Above are barrel prices; for less quantities an advance will be charged.

In making shipments of oils the railroad companies take them for separate transportation, and forward in special cars two or three times a week. On this account, customers frequently do not receive them as promptly as their other goods which are shipped by us at same time.

C. T. Raynolds & Co.'s—

REMARKS.

An experience of over thirty years in the manufacture of Varnishes, has enabled us to produce a quality of Fine Coach Varnish that has established a high standard with the builders of superior coaches and cars.

It is hardly necessary to add that the large quantities used by consumers, the increasing demand from dealers, and the receipt of letters from our customers testifying to their reliability, superiority, and general satisfactory character, fully endorse the claim that our Varnishes are in all respects equal, and in some respects superior, to the best imported, and are rapidly taking the place of same. They are made of the best materials, and are not sold until well aged, settled and proved to be right in every respect after a most thorough test.

In addition to style of packages mentioned on pages elsewhere, we quote quality in barrels of about forty-five gallons each at a reduction of twenty cents per gallon net.

Special quotations furnished upon application for cheaper qualities in bulk.

Finishing Varnishes for Coaches and Cars. Put up in gallon and half gallon (panel) cans. Quart and pint cans, subject to an additional charge of 25 and 65 cents per gallon, net.

Per Gal.

Wearing Body Varnish.....$ 6 00

For finishing the bodies of Coaches and Cars. Superior in durability, lustre, flowing and color, and in all respects equal to the best English. Sets in 18 to 24 hours, free from dust, and dries hard in three days.

Medium Body Varnish..... 6 00

For finishing the bodies of Coaches and Cars. Similar to wearing body in all respects, except being a quicker dryer.

Hard Drying Body Varnish..... 5 00

For Under Coats on superior work. Made of the very best Zanzibar gum. Dries very hard, and can be rubbed in about three days without sweating.

Pale Carriage Varnish..... 5 00

For finishing the Wheels and Under Parts of Carriages. Flows and works freely. Possesses uniformity, fullness and brilliant lustre. Sets quickly, and dries hard in 24 hours.

C. T. Raynolds & Co.'s—Continued.

Imperial Coach Body Varnish..... $4 50

For finishing the Bodies of Coaches. A superior durable finishing varnish, pale in color, flows freely, of good durability and brilliancy. A safe varnish to use in all weather. Sets in eight hours and dries hard in 24 hours.

Elastic Gearing.....per gal. 4 50

For finishing the Wheels and Under Parts of Carriages. Very elastic, good body, light color and durable. Sets quickly and dries hard in 24 hours.

One Coat Coach.....per gal. 4 00

For finishing Coats. Pale, hard drying, heavy body and brilliant. Made specially for work where only one coat of heavy bodied varnish is required.

Rubbing Body.....per gal. 4 50

For Under Coats. Made for superior work, very light in color, sets quickly, and can be rubbed in three days without sweating.

Quick Rubbing, Extra Pale.....per gal. 4 00

For Under Coats. Made of superior material, pale color, quick dryer. Can be rubbed in two days without sweating.

Quick Rubbing, No. 1.....per gal. 3 50

For Under Coats. Made of very hard gum, dries hard quickly, and can be rubbed in two days without sweating.

Black Rubbing.....per gal. 4 00

For Carriage Parts and Under Coats. Is used chiefly on work requiring despatch, where time cannot be given for coats of black and rubbing varnish. It flows well, and dries hard with an intense black lustre. Can be rubbed in two days without sweating.

Discount, to dealers only, in Case lots, 20 per cent.

McCloskey's Liquid Royal Wood Filler—

This is the only Filler by which a perfectly smooth and hard surface can be obtained without the necessity of rubbing off.

The Light Liquid Filler is particularly adapted for pine, where it is of the utmost importance to retain the original light color of the wood, as it is perfectly transparent. It is only necessary to give the softest woods one coat of the Liquid Filler and one coat of Varnish or Amber Finish to obtain a finish far superior to that usually obtained by two coats of Shellac and two coats of Varnish.

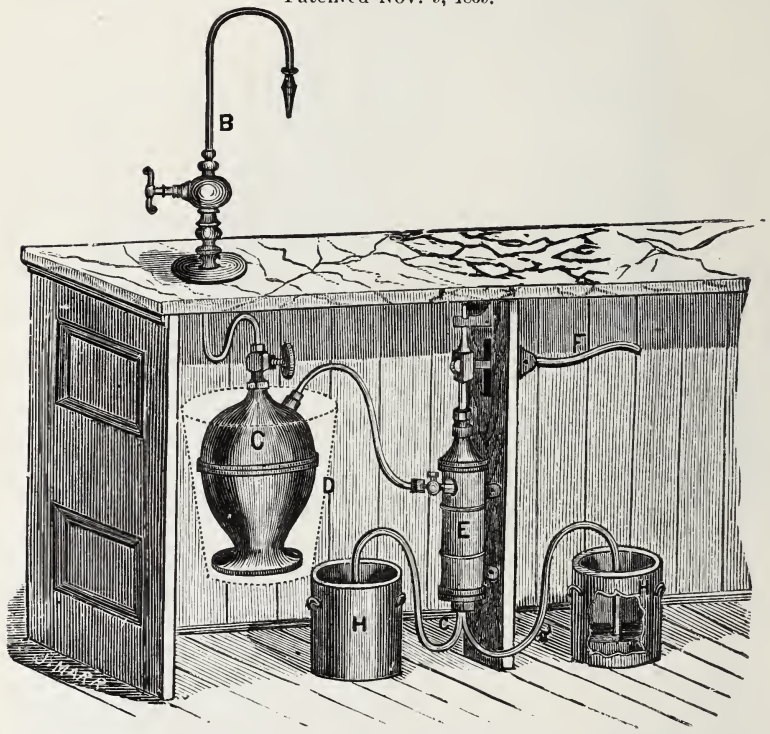
OTTO ZWIETUSCH'S

Patent Soda Water Apparatus

Patented Nov. 9, 1869.



The above represents a PATENT ATMOSPHERIC SODA WATER APPARATUS, which needs but to be seen to be appreciated by all familiar with the business. It is the most economical, as well as the most durable, the simplest, and therefore the best apparatus ever constructed. By this invention the water, including the requisite syrups, can be drawn at a cost not exceeding 1½ cts. per glass, leaving a handsome margin for the enterprising proprietor. There is no three nor four feet space occupied on the counter, and no cumbersome machinery to be put up. It can be placed anywhere, takes up but very little room, and never gets out of order. All parts coming in contact with acids, etc., are well protected by pure tin or silver against their corroding influence.

Bicarbonate of Soda and Acids must be used by this Apparatus to produce Soda Water, but by this machine the result is far better than by the old way, using common brass pumps and a single solution of Bicarbonate of Soda. No acids need be put into the Syrups, except the natural fruit extracts.

It consists of a well Tinned Pump, Copper Fountain. Tin Suction and Connection Pipes, Cooling Tub, and a heavy Silver-Plated Draw Cock.

Price of Apparatus, as shown above $65 00
Or, Apparatus as shown above, without Silver-Plated Counter Draw Cock... 55 00

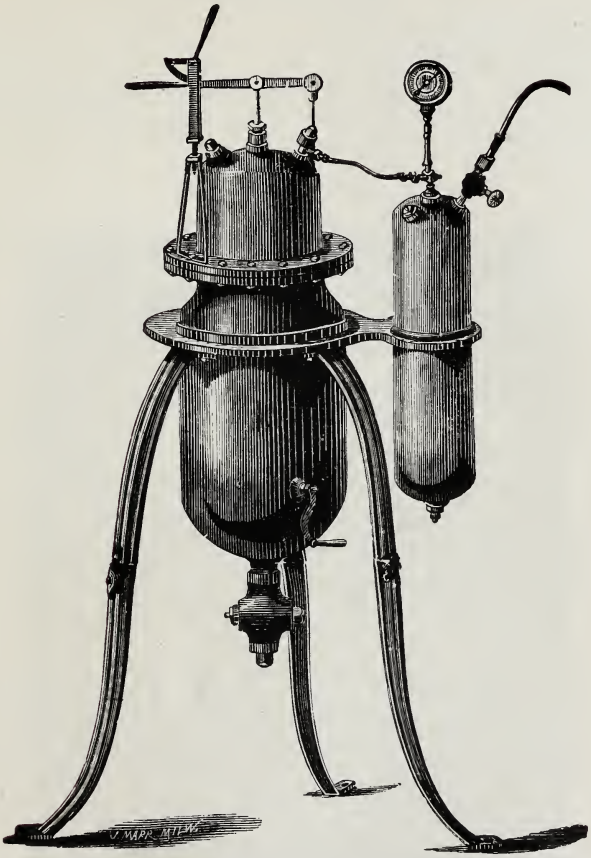
ZWIETUSCH'S
UPRIGHT IRON GENERATOR

Patented July 30, 1872.



The above cut represents my patent Generator, which is made of iron and lined in the interior with heavy sheet lead. It is precisely the same Apparatus as the copper one, differing only in material, thus comprising the same good qualities. The washer having the sieves is made of heavy copper, and has a cover of gun-metal bolted to it. The Apparatus is strong and durable, the cheapest in market compared with others, and very suitable for a small business.

WHAT THE DRUGGISTS SAY

—ABOUT—

McK. & R.'s Pure Fruit Juices.

MESS. MCKESSON & ROBBINS: FOND DU LAC, WIS., May 18, 1889.

Dear Sirs—We have used your Fruit Juices for four or five years, and we are greatly pleased with them. We think that we owe our success of our large Soda Water and Milk Shake sales to the superior quality of your Fruit Juices. Respectfully Yours,

DITTER, MITCHELL & CO.

MESS. MCKESSON & ROBBINS: EAU CLAIRE, WIS., May 17, 1889.

Dear Sirs:—It is with pleasure that I recommend your Fruit Juices in preference to any others. They give entire satisfaction and my Soda sales have doubled since I have begun to use your juices.

Very truly,

E. A. BALLARD.

MESS. MCKESSON & ROBBINS: BAY CITY, MICH., May 18, 1889.

Dear Sirs—We take pleasure in stating that we find the McK. & R. Fruit Juices very satisfactory, and we think *finer* than any we have ever used before. Respectfully,

HULL & TILTON.

MESS. MCKESSON & ROBBINS: DETROIT, MICH., May 17, 1889.

Dear Sirs:—We take great pleasure in stating that we have used your Pure Fruit Juices for several years, and have found them uniformly satisfactory in every particular. Yours truly,

FRED. D. STEVENS & CO.

MESS. MCKESSON & ROBBINS: JANESVILLE, WIS., May 18, 1889.

Gentlemen—Having used your Fruit Juices for four years past, I am glad to offer a word in their favor, for I realize that a large share of my success in my Soda Water department is owing to them. I have purchased in bulk and have been well pleased with the way they have kept; my syrups have a fruity flavor which I was never able to obtain by the use of any extracts, and I am glad to recommend them to anyone. With best wishes for your continued success with the same, I am, Yours truly,

E. B. HEIMSTREET.

MESS. MCKESSON & ROBBINS: BELOIT, WIS., May 21, 1889.

Gentlemen—We noticed a marked increase in our sales of Soda Water when we commenced the use of McK. & R. Fruit Juices. We expect to use them exclusively as long as we continue in business.

Respectfully,

C. A. SMITH & CO.

MESS. MCKESSON & ROBBINS: FOND DU LAC, WIS., June 13, 1889.

Gentlemen—As your Fruit Juices gave such excellent satisfaction for the last two years we shall continue to use them. Yours, &c.,

KENT & GEISSE.

MESS. MCKESSON & ROBBINS: MILWAUKEE, May 20, 1889.

Gentlemen—We have used your Fruit Juices for two years, and have found them to fulfill all our expectations. They are very rich and represent faithfully the true flavor of the several fruits from which they are made. Our trade also endorses them, and we anticipate a large increase of our wants during the coming season.

Very truly, your friends,

"HELLO," MY FRIEND,

DO YOU USE VASELINE or COSMOLINE YET?

YOU DO!

Well, you're foolish for paying 28c per lb. or thereabouts for Vaseline or Cosmoline, when 14c covers the cost of Argoline Petrolatum, in 5 lb. cans—and the article is superior to either. Order a 5 or 10 lb. can from MESSRS. CHAS. BAUMBACH CO., and we guarantee you'll use no other.

HARD CAPSULES.

DUNDAS, DICK & CO., Selling Agents.

These Capsules are especially adapted for export, and being hard, are suitable for the trade in warm and damp climates. They hold 10 minims each, and where the quantity of medicament is not sufficient to fill a capsule, the bulk is made up with a bland oil or milk sugar, whichever is best suited to the nature of the ingredient; those containing milk sugar being practically, pills without an excipient. They are easily swallowed, and dissolve quickly in the stomach.

They are put up in tin boxes containing 30 Capsules. In ordering please specify GRAY'S AMERICAN HARD FILLED CAPSULES.

ZIEGLER'S

Malt Drops & Malt Caramels

TRADE MARK
PATENTED.

FOR THE PREVENTION AND CURE OF

COUGHS

— AND —

COLDS

And all Affections of the

Throat & Bronchial Tubes.

The "Ziegler Malt Drops" and "Malt Caramels" contain 40 per cent. of malt. Aside from its curative qualities, malt is highly nutritive; it will improve the appetite and aid digestion.

Malt has been prescribed in all ages by the world's most eminent physicians for the cure of throat, lung and stomach troubles: also general debility of the system.

A single box of "Malt Drops" or "Malt Caramels" contains more real nutrition and strength than a quart of beer or ale, and its digestive qualities prevent disorders of the stomach and bowels in summer. Its beneficial properties during the cold season for troubles of the lungs, throat, etc., are assured facts.

THESE MALT DROPS AND CARAMELS ARE PUT UP IN THE SHAPE OF A CONFECTION AND ARE READILY TAKEN BY CHILDREN, AS THEY ARE AS PLEASANT AS CANDY.

"G. Z." STAMPED ON EACH DROP.

DR. D. JAYNE'S FAMILY MEDICINES.

Are prepared with great care, expressly for Family Use, and are so admirably calculated to preserve health and remove disease, that no family should be without them. They consist of

JAYNE'S EXPECTORANT.—For Colds, Coughs, Asthma, Consumption, and all Pulmonary and Bronchial Affections. It promotes expectoration and allays inflammation.

JAYNE'S TONIC VERMIFUGE.—For Worms, Dyspepsia, Piles, General Debility, etc. An excellent Tonic for Children, and a beneficial remedy in many of the ailments of the young.

JAYNE'S CARMINATIVE BALSAM.—For Bowel and Summer Complaints, Colics, Cramp, Cholera, etc. A certain cure for Diarrhœa, Cholera Morbus and Inflammation of the Bowels.

JAYNE'S ALTERATIVE.—Of established efficacy in Purifying the Blood, and for curing Scrofula, Goitre, Dropsy, Salt Rheum, Epilepsy, Cancers and Diseases of the Skin and Bones.

JAYNE'S LINIMENT OR COUNTER-IRRITANT.—For Sprains Bruises, Soreness in the Bones or Muscles, Rheumatism, and useful in all cases where an external application is required.

JAYNE'S SANATIVE PILLS.—A valuable Purgative and a certain cure for all Bilious Affections, Liver Complaints, Costiveness, Dyspepsia and Sick Headache.

JAYNE'S HAIR TONIC.—For the Preservation, Beauty, Growth and Restoration of the Hair. A pleasant dressing for the hair, and a useful toilet article.

JAYNE' SPECIFIC FOR TAPE WORM.—A certain, safe and prompt remedy.

In settlements and localities where the attendance of a physician cannot be readily obtained, families will find these Remedies of great service. The directions which accompany them are in plain, unprofessional language, easily understood by all and, in addition, Jayne's Medical Almanac and Guide to Health, to be had gratis of all agents, contains, besides a reliable Calendar, a Catalogue of Diseases, THE SYMPTOMS BY WHICH THEY MAY BE KNOWN, together with advice as to the proper remedies to be used.

All of Dr. D. Jayne & Son's Family Medicines are sold by dealers everywhere.
